Dear Owsley:

The incorporation of the town has been completed with the entry of the Order of Incorporation. In accordance with our understanding, I shall continue to render such legal services as you may require through the election of officers for our agreed retainer of \$300.00. Since our legal work is complete except for any problems which might arise during the course of the election and the filing of the returns, I think it proper that our retainer should be paid and I am accordingly enclosing our statement as per agreement.

After the election has been held it will be necessary to file the election returns with the County Judge and for the County Judge to commission the new officers.

In case any other question occurs or problems arise, do not hesitate to call upon me.

Very truly yours,

  
KARL M. GIBBON
